Dear owner of Burden's Towing,

On May 31st, you and/or employees of Burden's Towing prevented my ability to retrieve transportation and shelter for sleep.

With "probable cause," your impoundment and towing bills still affiliate my reference.

After being told off before 10:59AM, you have still made no attempts replying to my expressed desire in retrieving all belongings, including any unexpired Driver's License...

I need my unexpired identification to pay any impoundment/towing fines.

With a police car arriving after departing peacefully... I was yelled and shouted at throughout my attempt to gather belongings. My name is still referenced on your fines.

Perhaps what you said to the police convinced 911 to say:

"[...] only call in [actual] emergencies. [...]"

Trespassing me from your impoundment yard before I could get my Driver's License ensured I couldn't pay any towing/impoundment bill at all... making impoundment costs unverifiable as valid to this date, whether it was a "legal trespass" or not.

After checking myself into a hospital... I had to go to the Emergency Room, actually.

Burden's choices ensured shelter was inaccessible to the extent of psychosis insomnia.

Awake for over 49 hours due to my own shelter not payable, transportation (to access shelter) was needed to follow doctor's instructions to sleep immediately (first in Tillamook County) after the Emergency Room exit because you prevented fee payment [for lifespan].

Burden's Towing will be sued for clothing, shelter, and transportation costs unless this issue is resolved by June 22nd, despite what was spoken about me to police and relatives.

Regardless of contractual agreements you have with Tillamook Police Department[s]... my car was wrongly towed and impounded from probable cause due to misjudgment.
